

Bachelor of Science in Information Technology

Excelsior College

The Bachelor of Science in Information Technology program provides you with the knowledge, skills, applications, and practices you need to make an immediate impact in the information technology field.

Accredited by the Computing Accreditation Commission of ABET (<https://www.abet.org>) the online program develops expertise in subjects including software and development, computer systems, database management, network communication, cybersecurity, system administration, human-computer interaction, and project management. Choose between two technical concentrations that prepare you for positions in high-demand job areas within the information technology industry, or pursue the general option that gives you the opportunity to design a study plan that aligns with your career goals.

Program Design

Once enrolled, a knowledgeable academic advisor will conduct an initial meeting with the student to design a personalized degree plan leading to the completion of 120 credits for a bachelor's degree. Should the student have previous credits, the advisor will take that into consideration as well. Students will be required to take online courses to complete the requirements necessary for the IT degree.

Students can choose to earn one of the following concentrations:

- Bachelor of Science in Information Technology (Cybersecurity)
- Bachelor of Science in Information Technology (Network Operations)
- Bachelor of Science in Information Technology (General)

Fast Facts

- Open enrollment. Start anytime.
- Top job areas in information technology include cloud computing, data analysis, and information security.
