

Bachelor of Science in Cybersecurity

Excelsior College

Aligned with the academic requirements for cybersecurity set by the National Security Agency (NSA) and Department of Homeland Security (DHS), the Bachelor of Science in Cybersecurity program provides you with the ability to enhance your technical knowledge and skills in cybersecurity. The program is designed to prepare you for cybersecurity-related jobs in the U.S. Cyber Command, the NSA's signal intelligence operations, the Federal Bureau of Investigation, law enforcement agencies, and corporate environments.

As Excelsior is a Center for Academic Excellence in Cyber Defense (CAE IA-CD), the program supports the belief of the NSA that cybersecurity should be integrated in all aspects of a person's career. The degree will prepare the student to take several industry certification exams such as CISP, CEH, Security+, Network+, CHFI, SSCP, and ESCP.

Program Design

Once enrolled, a knowledgeable academic advisor will conduct an initial meeting with the student to design a personalized degree plan leading to the completion of 120 credits for a bachelor's degree. Should the student have previous credits, the advisor will take that into consideration as well. Students will be required to take online courses to complete the requirements necessary for the Cybersecurity degree.

Students can choose to earn one of the following concentrations:

- Bachelor of Science in Cybersecurity (Cyber Operations)
- Bachelor of Science in Cybersecurity (General Cybersecurity)

Fast Facts

- Open enrollment. Start anytime.
- Cybersecurity jobs can command a \$6,500 premium over other IT jobs.
- Average program cost: \$38,000
- Up to \$22,000 in financial aid available for eligible students, bringing the cost down to as low as \$16,000

Program Prerequisites

- GED or High School diploma

How to Apply
